## **Digital** Inventory

A digital inventory of all your household goods will live within our HomeSafe Connect platform. This electronic inventory will give you an accurate snapshot of all items that are transported during your move, including photos and documented conditions of high-value items. Upon arrival at your new home, the digital inventory makes it straightforward to verify that all your items are accounted for, reducing the risk of missing belongings.

## <u>Process of the Digital Inventory</u>

Items are added	
by room as	
moving crew	
members work	
their way through	
your home.	

Serial numbers of electronics, major appliances, firearms, and other items will be scanned for accurate collection and documentation. Your digital inventory is created during the packing and loading stages of your move.

Each item, crate, and carton will be labeled with a unique barcoded sticker and tag number which will be scanned in HomeSafe Connect to enhance inventory confirmation.

Once your items arrive at your new home, you can use the digital inventory as a reference for any claims you need to file.

Here is a	My Move lere is a snapshot of all your items. You can use this as a reference or to report if anything was damaged or went missing.							
My Inventory My Claims								
٩	What item are you loo	king for?						
	Item No.	Name	Room 🍸 🔸	Notice (i)	Claim ()			
3	PACK-001	6.5 - CP	Den	File Notice	File Claim			
	LOAD-001	TV, 76*+	Den	File Notice	File Claim			
No.	LOAD-007	Chair, Lounge	Den	File Notice	File Claim			
	LOAD-008	Ottoman	Den	File Notice	File Claim			
	1040-000	Cabinat Lititu	Den	Eile Notice	Eile Claim			

## **Benefits of the Digital Inventory**

Accuracy: The digital inventory ensures accurate records of your belongings to help prevent anything from being lost or left behind during the move process. We inventory items by combining the roll's lot number and tag number to create a unique combination that has a precision of 1 in 1 billion! Using this unique number, we can identify the owner of a misplaced item within minutes to make sure it is reunited with its owner.

**Organization**: Having on-demand access to a detailed, organized list of all your items can reduce stress and confusion during the moving process. You can sort or filter your inventory to find specific items or rooms

**Security**: Powered by Okta's identity management solutions, the HomeSafe Connect platform provides data security features that ensure your digital inventory records are protected from unauthorized access.

**Time Savings**: Traditional inventory methods may involve manually writing down item descriptions and quantities. Digital tools streamline this process, saving time during your move.

Minimal Paperwork: The HomeSafe digital inventory solution reduces the need for paperbased inventory lists, making it more environmentally friendly and easier to manage.
